Data Sharing

The school is required to share pupils' data with the DfE on a statutory basis.

The National Pupil Database (NPD) is managed by the DfE and contains information about pupils in schools in England. St Anne's Primary is required by law to provide information about our pupils to the DfE as part of statutory data collections, such as the school census; some of this information is then stored in the NPD. The DfE may share information about our pupils from the NDP with third parties who promote the education or wellbeing of children in England by:

- Conducting research or analysis;
- Producing statistics;
- Providing information, advice or guidance.

The DfE has robust processes in place to ensure the confidentiality of any data shared from the NPD is maintained.

St Anne's Primary will not share your personal information with any third parties without your consent, unless the law allows us to do so.

The school routinely shares pupils' information with:

- Pupils' destinations upon leaving the school;
- The LA;
- The NHS;
- The DfE

Retention

In accordance with the GDPR, the school does not store personal data indefinitely; it is only stored for as long as necessary to complete the task for which it was originally collected.

As well as advice provided by the school's Data Protection Officer, we also consult the Information and Record Management Society's guidance on retention periods for school records.
