STRATEGY STATEMENT

At St Anne's Primary School, we believe that teaching and learning opportunities should meet the needs of all pupils. We ensure that appropriate provision is made for pupils who belong to vulnerable groups, ensuring that the needs of such pupils are adequately assessed and addressed. All our work through the Pupil Premium will be aimed at accelerating progress and overcoming barriers to learning so that these pupils achieve similar outcomes to their peers and diminish the difference between Pupil Premium and non-Pupil Premium.

The pupil premium is allocated to schools for: children of statutory school age from low-income families who have been eligible for free school meals at any point in the last 6 years (FSM); children who have been looked after continuously for more than six months; children whose parents are currently working in the armed forces.

In order to meet our aim of diminishing the gap between Pupil-Premium and non-Pupil-premium, our core approaches have included providing additional academic support to pupils through careful identification of their needs; providing pastoral support to children who require it; supporting low-income families financially through the payment of school trips/uniform and addressing any other issue that may arise to ensure the children receiving PP make accelerated progress.

During school closures throughout 2020 and 2021 academic years we ensured that all children had access to our digital platform by providing both government funded and voluntary gifted devices. These have stayed with the families throughout 2021/22 to ensure they have access to homework through the platform. We have also engaged with the EEF training 'Making the difference for disadvantaged pupils.' We have used the evidence based research to inform the school priorities and train teachers in best practice methods.
